

Environmental Policy Declaration

In dependence on ISO 14001:2004

The general management of

ROBA Piping Projects GmbH

constitutes, that environmental aspects are fundamental part of the company policy and we consider them in all business related activities to

- ensure a safe and healthy environment for our people
- minimise impacts on environment and produce safe and environmentally-friendly throughout our business processes

We implemented the following environmental protection items to our premises in Obernburg

- Row of roof windows in every hall segment for use of daylight to reduce electric lightning
- Automatic control of electric lightning considering the daily light conditions
- Automatic control of heating of our facilities considering the outside conditions
- Use of modern illumination equipment
- Use of modern heating devices
- Establishment of photovoltaic cells on roofs to generate electricity out of solar power
